Specifications

Diameter	106 mm
Height	16 mm, open at the bottom
Top	4 mm, fully solid
Wall and ribs	2 mm, 8 ribs, centre hub
Tool	108 mm hole cutter
Material	ASA, colours inside the material
Lettering	number up to 3 digits plus m or yd, 17 mm club logo
Colours	up to 4 per part

Installation

1. **Cut the hole.** Cut about 2 cm deep with the 108 mm hole cutter.
2. **Fill the marker.** Fill the underside with soil from the plug and press it down. The ground then carries the load.
3. **Align and insert.** Turn the number towards the tee and press it in flush.
4. **Done.** No glue, no concrete. To move it, simply cut it out again.
