Specifications

Diameter	50 mm
Thickness	2.6 mm
Digit height	21 mm
Material	ASA, colours inside the material
Colour depth	1 mm
Fixing	glued onto the cover
Lettering	number up to 3 digits, m or yd
Colours	up to 4 per part

Installation

1. **Clean the cover.** Remove soil and grass from the sprinkler cover and let it dry.
2. **Align.** Turn the plate so the number reads from the fairway.
3. **Glue.** Fix it with a two-component adhesive or another recommended outdoor adhesive. We can supply the adhesive on request.
4. **Press.** Press firmly and let it cure. The head then works as usual.
